

Replacement DL389 Form

CALIFORNIAMOTORCYCLIST.COM

ALL SECTIONS MUST BE COMPLETED. DL389s expire 12 months from the original date of course completion and will not be replaced once it has expired. Obtaining a replacement DL389 will not extend the expiration date. If it has already expired you will need to take the entire course to receive a new DL389 certificate. The training provider will not be able to replace your DL389, only CMSP is authorized to replace the DL389. Replacement DL389s may take up to a 5 working days to process your request. An incomplete address will cause significant delay, make sure you include an apartment or unit number.

DATE: _____

TRAINING PROVIDER NAME: _____
